What are Self-ligating Braces?

Self-ligating braces are different from traditional braces as they do not require elastic ties to hold the archwire in the bracket slot. The placement of elastic ties on traditional braces puts unnecessary pressure and increased friction on your teeth, which causes discomfort and slows treatment. Instead of elastic ties, *SLX 3D* Self-Ligating Braces feature a sliding gate that opens and closes to engage the wire, allowing the teeth to move quickly, more easily, and more comfortably than conventional braces.*

* Based on the study "Self-ligating brackets: where are we now"
N.W.T. Harradine, Journal of Clinical Orthodontics, 2003

SELF-LIGATING BRACES

"Patient-Friendly Treatment"

HENRY SCHEIN®
ORTHODONTICS

The New Movement In Orthodontics™

With **SLX 3D Braces**, achieving a beautiful smile in the shortest possible time has never been so easy. The sleek, comfortable **SLX Braces** were designed with you, the patient, in mind.

Utilizing the latest in advanced orthodontic technology, **SLX 3D Braces** ensure the most comfortable, effective, and fastest treatment available. Plus, the self-ligating design of the braces eliminate the need for elastics or metal ties.

SLX 3D

SELF-LIGATING BRACES SYSTEM

Benefits for You!

-  **Fewer Office Visits**
40% fewer appointments on average, which gives you more time to enjoy your regular activities.*
-  **Shorter Treatment Time**
Passive *SLX 3D* self-ligating system allows for less time in braces.
-  **Shorter Office Visits**
With no need to change the elastic ties, office visits are quicker and more enjoyable.
-  **Aesthetic Options**
You have the choice with *SLX 3D* of traditional metal braces or our "Clear" aesthetic braces. to show off your smile during treatment!
-  **Increased Comfort**
Reduced pressure on your teeth, along with smooth, rounded edges means enhanced comfort and virtually no irritation.
-  **Precise Results**
Unique design allows your doctor to achieve precision results and give you a beautiful smile!
-  **Sleek, Low-Profile Design**
Avoid the irritation and bulky feeling caused by conventional braces with elastic ties.
-  **Low Force, Less Friction**
Free-sliding technology with low force moves your teeth quickly, naturally, and comfortably than traditional braces.
-  **Good Oral Hygiene**
It is much easier to keep your teeth clean and free of debris, resulting in improved oral hygiene.

* Based on the study "Self-Ligation in the year 2000, a comparative assessment of conventional and self-ligation bracket systems objective" Berger J., JCO, 2000

Before Treatment

The patient-friendly *SLX Self-Ligating Braces* are bonded to your teeth in the same manner as conventional brackets...

SLX 3D Bonded

...but with no elastic ties to create unnecessary friction, your teeth softly glide into the correct position.

After Braces 12 Months

So, with fewer appointments, less discomfort, and less time, you will have the beautiful smile you've always wanted!
